

CST COVERS SOLUTIONS

Proven System to Contain Wastewater Odors and Vapors

**Miami Dade Water & Sewer Authority
North District Wastewater Treatment Plant
North Miami Beach, Florida 160' dia. domes
Engineer: Hazen & Sawyer**

CST Covers' custom engineered, aluminum domes contain odors and vapors...no more complaints from neighbors or your own staff.

For more than thirty years CST Covers has been producing clear span aluminum domes covering wastewater process tanks in applications throughout the world and in the widest variety of climates and geography. CST domes are used with tanks made of welded steel, concrete and bolted steel.

Our experienced engineers will design a dome that will take into account your specific requirements and

deliver years of service with virtually no maintenance or upkeep. Aluminum does not rust, rot, spall or solar degrade and is not attacked by hydrogen sulfide.

Another CST Covers advantage...we offer single source solution...design, manufacturing and construction.

Contact us today for the answers to you specific needs.
