**CST Storage Wins Contract from a chemical manufacturing company in Southwest Missouri**

Lenexa, Kansas, on 8.08.2014 - CST Storage was awarded a contract from a chemical manufacturer in Southwest Missouri to provide a 150,000 gallon Fire Protection Water Storage Tank upgrading their Fire Protection water storage supply.

Under the contract, CST Storage will install a 150,000 gallon HydroTec CS® epoxy coated water storage tank. Construction is estimated to start in October or November and should take approximately one week for the tank to be constructed, and an additional week for the insulation to be completed after hydro-testing of the tank has been completed. HydroTec tanks are factory-coated with electrostatically applied proprietary epoxy coating using CST's OptiBond™ coating process and meet or exceed NFPA 22, USACOE and other industry standards.

CST Storage is the world's largest provider of modular, factory coated bolted storage tanks for dry bulk and liquid applications in municipal, industrial and agricultural markets. The company has fabrication facilities located in Parsons, Kansas; Winchester, Tennessee; and DeKalb, Illinois. Its engineering centers of excellence are located in Lenexa, Kansas; Parsons, Kansas; DeKalb, Illinois; and Winchester, Tennessee. CST Storage maintains its headquarters in Lenexa, Kansas. For more information, contact Kim Reeves, Global Marketing Director, CST Industries at +1.713.351.3769.
