

Engineered Agricultural Nutrient Management System

Slurrystore® Testimonial

35-year-old Slurrystore – In it for the long haul!

The Slurrystore® on Will and Betsy Yoder's Heron Run Farm in Huntingdon, PA has been in use for over 34 years.

“Our Slurrystore was built in 1982. We store about a million gallons of dairy manure in it every year. That's 35 million gallons pumped through the system over the years.

We believe this Slurrystore was the first in the county. Dad and I looked at concrete manure storage, but we weren't too impressed with the agitation system.

We've never had to spend any money on the tank or agitation pump for maintenance. If everything on my farm would have so little maintenance as the Slurrystore, I'd be happy!,” says Will, Jr.

Installing Dealer: Penn Jersey Products, Inc. Authorized Slurrystore and Harvestore Sales and Services Since 1964.
